All remittances and business letters etc., should be addressed to THE BISBEE NEWS COMPANY.

BISBEE, ARIZ., OCT. 31, 1900.

THE Board of Supervisors on October 20 made all appointments to fill the election boards in the different voting precincts. At that meeting the action of the board of June 30, dividing this town into two election precincts, was rescinded. This action of the board will entail a large amount of work for the judges and ballot clerks, and will necessitate the procuring of a commodious and convenient room for the voting, which should be so situated as to be easy of access to voters from all parts of the town.

PARADISE FOR TRAMPS.

Larkin Rules the Cities of Australia and Hobos Terrorize the Country Districts.

For several reasons Australia may be regarded as the ideal abode of the hobo and the tramp, or, as the former is designated in the cities, the larkin.

Thelarkin, like the kangaroo, is peculiar to the Australian continent. In no other country, certainly not in the United States, would he even be permitted to exist.

In appearance, says the Boston Globe, he is undersized in stature, slight in build and sallow in complexion, probably owing to an early excessive use of cigarettes. His attire is unique and unmistakable. He wears a narrow brim fed hat on one side of his head, a short jacket reaching to the hips, pants very tight about the waist to the knees, but spreading out bell-shaped at the ankles to the tips of his shoes. The latter are invariably with high heels.

Singly a desperate coward, but in packs or gangs as he perambulates the sidewalks of Melbourne or Sydney, he becomes a terror to women and children and a menace to anyone he fancies he can insult with impunity. He rarely does any work and is never found out of the cities.

The Australian tramp much resembles the same species in America, only instead of "looking for work," he generally adopts the guise of a prospector. With "billy" or kettle in hand he trudges from one sheep station to another, enforcing hospitality by the fear that if such is not accorded a barn will be found ignited on his departure.

In no country in the world are the unemployed treated with so much consideration by the authorities as in Australia. As the labor vote controls the balance of political parties, and the floating population of unemployed are "workingmen," in that respect officials are chary of saying no to a deputation of this class of citizens.

For instance, as has more than once happened, if a body of unemployed should wait upon the minister of the interior with a request for free transportation on the government railroads to some remote district, where they assert work to be found, the minister, particularly if an election is at hand, has no other recourse but to issue the tickets.

Then, if, when the place is reached, climatic or other conditions are not found to be as conjectured, a pressing request for return passage does not often meet with refusal.

STRONG MEN MADE WEAK.

Big Ones in Harvard's Football Squad Given Astonishing Exhibition of Hypnotic Power.

Jack MacMaster, Harvard's veteran trainer, gave the crimson pigskin chasers one of the most exciting experiences of their lives the other day. MacMaster brought on the field William H. Mack, a young man weighing about 140 pounds, and challenged any one of the squad to lift him (Mack) off his feet. This was easy, all thought, but of 22 men who made the try not one man accomplished the feat. After about all had made a try Capt. Daly said he would do it, but was equally unsuccessful. Then Head Coach Ben Dibblee tried and failed.

Mack uses what may be called by some hypnotic power, or the power of mind over circumstance. When a man would try to lift him Mack would place his index finger lightly on the side of the neck of the lifter and by some unseen power destroy the strength of his opponent. When his finger was removed he was lifted almost as a child by the sturdy footballists.

Innumerable tests were made, until Mack was completely exhausted from the terrific strain under which he was laboring.

Saving Sandy.
"I can't see," said the shoe clerk boarder, "why a Scotchman should say 'hoo' for 'have'."

"It is his economical disposition. He saves a 'v' every time he does so," said the Cheerful Idiot.—Indianapolis Press.

MINING APPLICATION NO. 723.

Survey No. 1478.

UNITED STATES LAND OFFICE,

TUCSON, ARIZONA, August 29, 1900.

Notice is hereby given that M. J. Brophy and E. B. Mason, whose post office address is Bisbee, Cochise county, Arizona, have this day filed their application for a patent for 1000 linear feet of the Sorrell Horse

lode, mine or vein, bearing copper and other metals, with surface ground 322.20 feet in width, situated in Warren mining district, county of Cochise and Territory of Arizona, and designated by the field notes and official plat on file in this office as survey number 1478, approximately in township No. 23 south, range 24 east (unsurveyed), of Gila and Salt River Base and Meridian, said survey No. 1478 being as follows:

Beginning at cor. No. 1, the nw. cor., a pine post scried 1-1478-S.H.L., whence original location bears n. 0 deg. 45 min. w. 221 feet to original location for a. and center 322.2 feet, same bearing to cor. No. 4, the sw. cor., identical with location and on the line

3-1478-S.H.L.; thence s. 56 deg. 52 min. 30 sec. w. 221 feet to original location for a. and center 322.2 feet, same bearing to cor. No. 4, the sw. cor., identical with location and on the line

3-1478-S.H.L.; thence s. 56 deg. 52 min. 30 sec. w. 221 feet to original location for a. and center 322.2 feet, same bearing to cor. No. 4, the sw. cor., identical with location and on the line

3-1478-S.H.L.; thence s. 56 deg. 52 min. 30 sec. w. 221 feet to original location for a. and center 322.2 feet, same bearing to cor. No. 4, the sw. cor., identical with location and on the line

3-1478-S.H.L.; thence s. 56 deg. 52 min. 30 sec. w. 221 feet to original location for a. and center 322.2 feet, same bearing to cor. No. 4, the sw. cor., identical with location and on the line

3-1478-S.H.L.; thence s. 56 deg. 52 min. 30 sec. w. 221 feet to original location for a. and center 322.2 feet, same bearing to cor. No. 4, the sw. cor., identical with location and on the line

3-1478-S.H.L.; thence s. 56 deg. 52 min. 30 sec. w. 221 feet to original location for a. and center 322.2 feet, same bearing to cor. No. 4, the sw. cor., identical with location and on the line

3-1478-S.H.L.; thence s. 56 deg. 52 min. 30 sec. w. 221 feet to original location for a. and center 322.2 feet, same bearing to cor. No. 4, the sw. cor., identical with location and on the line

3-1478-S.H.L.; thence s. 56 deg. 52 min. 30 sec. w. 221 feet to original location for a. and center 322.2 feet, same bearing to cor. No. 4, the sw. cor., identical with location and on the line

3-1478-S.H.L.; thence s. 56 deg. 52 min. 30 sec. w. 221 feet to original location for a. and center 322.2 feet, same bearing to cor. No. 4, the sw. cor., identical with location and on the line

3-1478-S.H.L.; thence s. 56 deg. 52 min. 30 sec. w. 221 feet to original location for a. and center 322.2 feet, same bearing to cor. No. 4, the sw. cor., identical with location and on the line
